.....• pursuing the excellence

XLAB SOLUTIONS

XLAB SOLUTIONS

We are X-Lab Solutions

The story begins in 1992 when "a few good men" have founded a service organization for laboratory and blood gas instruments in Transilvania.

At first, X-Lab Solutions' activity focused on maintenance and repairs. Along the way, the development of turnkey medical projects and providing lab supplies, have become priorities.

Today, the main focus is on providing after-sales services for medical equipment and projects (installation, commissioning, training, application support, service, maintenance).

X-Lab Solutions achievements:

- OVER 110 equipped hospitals and the associated services delivered, all over Europe
- Over 120 private laboratories equipped with diagnostic systems and serviced
- Over 170 private healthcare institutions equipped with medical devices and accessories

XLAB SOLUTIONS

The pillars of X-Lab Solutions

Advantages •

AQT90 FLEX analyzer

Test menu

Troponin I | Troponin T | CKMB
Myoglobin | NT-proBNP | CRP
BhCG | D-Dimer | PCT

Results in minutes

Throughput of up to 30 samples
per hour

Ease of use

No sample preparation required

Increased patient & operator safety

No exposure to waste or blood-borne
pathogens, automated mixing
eliminates user variability

High analytical performance

Proven sandwich method technology

Total availability in less than 24 h anywhere in Romania and Moldova.

Contact us for **technical support, service for your equipment or consumables.**

We are offering **an unique and customized range of services:**

SALES SERVICES

Our sales representatives deeply understand your needs and guide in taking your best decisions.

TRAINING SERVICES

Through our training services you will know exactly how to operate your equipment according to the manufacturer's instructions.

MAINTENANCE & SUPPORT

Our engineers are highly skilled in servicing the equipment we provide.
